

Swiss Technology For Water Management

November 23rd, 2012
Guangzhou

Under the patronage of:

Consulate General of Switzerland in Guangzhou
瑞士驻广州总领事馆

Organized by:

Supported by:

Swiss Technology For Water Management

Background

Acknowledging the need to promote Swiss know-how in a highly competitive and challenging market, the Swiss Technology for Water Management event has been launched under the initiative of the Swiss Chinese Chamber of Commerce in China (SwissCham China). Following a successful event in Nanjing in March 2012, and in Beijing in April 2012, the next event will take place on **November 23rd 2012, in Guangzhou.**

Concept

Innovative Swiss technologies will be presented in the field of sourcing, distribution, pipes, pumps, waste water management, purification as well as drilling, cutting and measurement equipments. Swiss and Chinese Senior Managers from both public and private sectors will attend the Forum. The interaction with the public will be a priority with a **Q&A session.**
